OBJECTIVE AND INVESTMENT POLICY I

The Independence et Expansion SICAV ("I&E") is an actively managed fund which seeks capital growth over a three year time frame.

The fund's investment policy is to buy shares of French companies listed on a regulated market whose market capitalization is less than or equal to the highest market capitalization of the CAC Mid & Small index and with low price to cash-flow ratio and to sell the stocks which do not meet these criteria.

The Fund may also purchase convertible bonds and warrants to acquire shares of such companies. The fund may also invest up to 10% of its net assets in companies listed on the Alternext and 10% in non-French European small caps.

The Fund's investment policy incorporates extra-financial environmental, social, and quality of governance (ESG) criteria.

COMMENTS I

In November, the market was driven by the stocks most affected by Covid 19. In this regard, the 91% increase in Plastivoire is representative.

November's result is satisfactory given the very low exposure of Indépendance et Expansion to companies that will generate losses in 2020. Those companies are the ones that rebounded the most this month.

Performance net of fees; dividends are accrued.

(*): The benchmark of the fund is the CAC Mid & Small NR index since 12/31/2016. The CAC Small NR was the benchmark of the fund since 12/31/2004. Previously, the benchmark of the fund was the SBF Second Marché index. For time periods before 12/31/2016, the performances of the fund's benchmark presented in this document are the results of the geometrical linking between the 2 indexes for their respective time-periods.

(2): P/B= Price to book ratio; C/CF = Price to Cash Flow ; PER = Price earning ratio; Yield= Stock return / portfolio

Gevelot	4,4%	Market Cap lower than Cash
Focus	4,3%	Key manager left
Linedata	2,8%	Disappointing H1 results
Tinexta	1,3%	Well valued

I RISK / RETURN PROFILE I

This indicator represents the annual historical volatility of the Fund over a 5-year period. In the absence of sufficient historical data, the risk indicator incorporates data simulated from a benchmark portfolio. Risk category 5 reflects a high potential gain and/or loss in the portfolio's value. This is achieved through investments in equities in small- or medium-sized companies on the European market. Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile. The risk category associated with the Fund is not guaranteed and may change over time. The lowest risk category does not mean "risk free". Your initial investment is not guaranteed.
